Superior Design - Uncompromised Precision - Practical Application

SOG® SPECIALTY KNIVES is dedicated to creating the highest standards of production cutlery in the world. We use the strongest steels, finest materials and newest manufacturing techniques which are combined with traditional hand craftsmanship to ultimately create the sharpest and most durable edges in the industry.

Our products utilize timeless designs which give the user maximum capability and performance in virtually every situation. The magical feel of our knives has become a trademark, perfectly balanced and sculpted for fit so that the blade does the work as if on its own. Our products are designed for the professional, sportsman, hunter, militarist, outdoorsman, survivalist and collector... or anyone who can appreciate precision cutlery at its finest!

On the Cover:

This high-speed photograph was frozen at one millionth of a second and captures a jacketed 45 caliber bullet split after being fired from point blank range. The blade shows up white where lead has been deposited after seventeen shots.

SOG BOWIE

Unparalleled Authenticity

Our *Bowie* is based on the original Special Operations Group knife secretly developed and used in the Vietnam War by the 5th Special Forces and other elite soldiers. These individuals were specialists in reconnaissance, infiltration and behind lines operations.

Produced in the original 800 year old samurai factory, this knife has become a classic that is unparalleled in authenticity and quality. We utilize the finest high carbon tooling steel, iron blued for strength and combined with a first time resin-impregnated leather handle that seals out moisture. The extremely thick blade and deep hollow grind make this one of the most appealing all purpose blade designs in the industry today. The blue steel crossguard, pommel and aircraft spunter nut, are expertly fitted with overall attention to balance and feel.

Engraved with Vietnam Special Forces Group and the SF Crest, the SOG Bowie is also available non-engraved on special order. A high quality black leather scabbard, whetstone, and leather thong are all included.

Specifications:

Blade 6 1/4" x .280"
Overall 10 1/2"
RC 57-58

Faceted Tip for increased strength

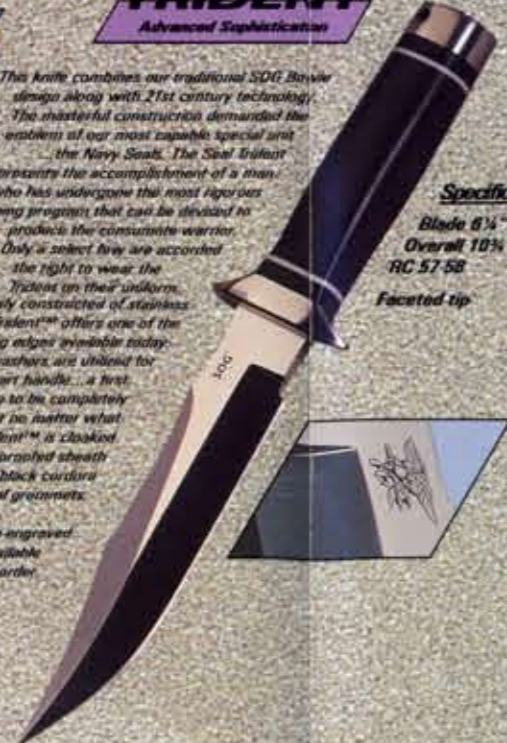

TRIDENT™

Advanced Sophistication

This knife combines our traditional SOG Bowie design along with 21st century technology. The masterful construction demanded the emblem of our most capable special unit... the Navy SEAL. The SEAL Trident represents the accomplishment of a man who has undergone the most rigorous training program that can be devised to produce the consummate warrior. Only a select few are accorded the right to wear the Trident on their uniforms.

Meticulously constructed of stainless steel, the Trident™ offers one of the finest working edges available today. Laser-cut micarta washers are utilized for the state of the art handle... a first. This enables the knife to be completely immersion resistant to further what the environment. The Trident™ is cloaked in a water proofed sheath constructed of black cordura and tactical geometrics.

A non-engraved option is available on special order.

Specifications:

Blade 6 1/4" x .280"
Overall 10 1/2"
RC 57-58

Faceted tip

TOMCAT™

Knife of the Year

The *Tomcat™* is the state of the art in folding knives. Now you can have that *Bowie* design you always wanted in a folder, giving optimum performance and full range capability in virtually every situation. This futuristic blade shape will cut like a much larger knife and yet will fold to a small, sleek package for ease in carrying. The all stainless steel construction is matched with the most aggressive, tactile, raised point, Kraton™ handle that can be found anywhere. This all adds to one of the most unique knives to ever be produced! From the open range to close quarters, the *Tomcat™* will travel anywhere and everywhere.

Specifications:

Blade 3 1/4" x .200"
Overall 8 1/4"
RC 57-58

Dual mounting nylon scabbard

TIGERSHARK™

The feel is pure elegance. The feel is pure TigerShark™.

For those of you who want the absolute full range capability that the big blade offers, our *TigerShark™* flies forward with chopping, slicing and pointwork capabilities never previously integrated into one knife. Utilizing the historically proven *Bowie* design, this blade steps into the future with rakish lines that cannot be found on any other knife in the world!

This 8" *Bowie* is manufactured from the finest exotic carbon steel, produced to our specifications, treated to a RC 55-57 and features convex bevels, our reinforced tip and a premier rolled edge.

These characteristics combine to form the finest aggressive cutting surface in the industry today. The molded Kraton™ raised point handle encapsulates the tang and provides a gripping comfort that translates into maximum effectiveness with minimal effort.

Specifications:

Blade 9" x .250"
Overall 14"
RC 56-57

Quality ambidextrous leather scabbard

SOG TECH™

Creating Tomorrow

Designed with the utmost utilization of modern technology, these two innovative cutting machines achieve a new pinnacle in high-tech performance... hence the name SOG Tech™.

Our new stainless steel blades are combined with razor sharp bevel edges for outstanding cutting ability and low maintenance... the best of both worlds. The aesthetic grand lines show that function can also be stylish. Our raised point Kraton™ handles that are reinforced for their comfort and positive gripping abilities offer the user the freedom of expression for any task. An ambidextrous heavy duty nylon scabbard is the perfect match for this all weather companion and ensures the safe retention of either of your knives.

The SOG Tech™ series is the choice of the outward bound in the 1980's. Come aboard!

Specifications:

SOG Tech™ I
Blade 5 1/4" x .250"
Overall 11"
RC 57-58

SOG Tech™ II
Blade 7 1/4" x .250"
Overall 12 1/4"
RC 57-58

The SOG Tech™ series can be special ordered in carbon steel with a rolled edge.

SOG WINDER™

On Target

The *Sogwinder™* I & II strike home with two brand new features: a drop-point folding *Bowie* style blade combined with an ambidextrous thumb stud for ease in opening. These knives "Zero In" with razor sharp blades that fold into the sleek format. Featuring all stainless steel construction and the most aggressive tactile raised point handle, the *Sogwinder™* series delivers state of the art performance regardless of environment.

An advanced dual mounting ballistic nylon scabbard ensures secure and comfortable retention of your knife.

Specifications:

Sogwinder I
Blade 2 1/4" x .160"
Overall 6 1/4"
RC 57-58
Optional scabbard

Sogwinder II
Blade 3 1/4" x .200"
Overall 8 1/4"
RC 57-58

The razor sharp edge in combination with the reinforced tip are reason enough why our *Government™* is a world leader in innovation, aside from the fact that it is the lowest priced knife in its jurisdiction.

SOG GOVERNMENT™

Will Not be Overthrown

The *SOG Government™* is history in the making. It is an innovative solution to an old problem... to produce a quality field knife that can be owned reasonably. A field knife has some of the most rigorous demands placed on it as it must serve in all environments, be called upon to perform a most diverse variety of functions, and be lightweight for ease of carry. Here is why our *Government™* passes the bill.

The all stainless steel construction assures the capabilities to penetrate dense jungle, withstand frozen tundra, or serve in a marine environment equally as well. Our tough, pliable Kraton™ handle with wrap around checkering is compatible with and provides the finest tacky grip in ice environments with gloves or in wet, slick conditions. The short crossguard guarantees a barrier between hand and blade but at the same time allows for a forward finger position when extra pressure or leverage is required. The steel pommel which is bolted on, enables the knife to be a field hammer.

Specifications:

Blade 6 1/4" x .180"
Overall 11 1/4"
RC 57-58

Black leather ambidextrous scabbard

PENTAGON™

When decisions need to be made

Our new *Pentagon™* sets the policy for action. Sometimes you just never know what kind of situation you might come across. Whether it is having to cut someone out of a seatbelt, opening a stuck door, or trying to get home through a blocked-out city, the *Pentagon™* prohibits confidence.

The 5" stainless steel blade offers the user the instant choice of a serrated or bevel edge combined with a reinforced tip. The dual thumb catches on the blade along with the sleekly flared out Kraton™ handle provide optimal control in any circumstance. The *Pentagon™* is housed in a black leather scabbard that utilizes an advanced clip for a variety of mountings.

Specifications:

Blade 5" x .160"
Overall 9 1/4"

Stainless steel guard

AIR-SOG™

Flying First Class

The *Air-Sog™* reaches a soaring altitude to fill the demand for a lightweight, fast opening multi-purpose pocket knife. Small enough to be carried in any purse, coat, pocket, etc. the *Air-Sog™* is big enough to satisfy the variety of chores you might require.

Utilizing an ambidextrous thumb stud for one hand opening allows immediate access to the *Air-Sog™* stainless steel *Bowie* blade and awesome cutting power. The sleek, molded, glass-reinforced *Eyrol™* handle is checkered for maximum comfort and control.

Specifications:

Blade 3 1/4" x .100"
Overall 7 1/4"

2.2 ounces total weight

NW HUNTER™

Take A Little Bit Of Civilization With You

Northwest Hunter

The Northwest Hunter evokes the images of one of the harshest outdoor wilderness areas in the world. Sportsmen, fishermen, hunters, and outdoor enthusiasts require a knife that can fulfill a variety of tasks, is easy to carry, and can perform in a wide range of environments.

The NW Hunter is designed for the outdoor rigors it may encounter. With an elongated clip point blade, flat ground bevels, and the world famous sharpness found on all SOG® products, the NW Hunter will not let you down. This is a state of the art knife that utilizes a small serrated section on the blade to increase the cutting power on fibrous material such as animal cartilage, ligament, or nylon rope. Manufactured entirely from 440 stainless steel, the NW Hunter features quality seldom seen even in very expensive knives...soldered crossguard to blade construction.

SOG® has become known for the comfortable feel, exceptional balance and ergonomically designed handles of its products. The NW Hunter is no exception and uses our wrap around Kraton® handles for a non-slip grip, even when wet or when dressing out game.

Northwest Hunter...take a little bit of civilization with you.

SPECIFICATIONS:

Blade: 5"x.160" 440A Stainless Steel

Overall: 9-3/4"

Weight: 6-1/2 ounces

Rc Hardness: 57-58

Lightweight nylon scabbard

DESERT DAGGER™

A Shield In Any Storm

Inspired by one of the greatest military successes in modern history, the Desert Dagger is a true performer with its edge options and high-tech format.

This diversified knife has been designed to provide an expanded capability over conventional double edge knives. The Desert Dagger combines 3 different edge types that enables cutting versatility on a variety of materials and also includes a solid steel pommel that can be used for 'on the spot' hammering in the field. In addition the Desert Dagger 'stands proud' with a precision soldered fit between blade and guard (A custom feature rarely found on knives under \$250).

The Desert Dagger employs the famous SOG® aggressive Kraton® grips for the ultimate command and control in the field. A finely-tailored tactical nylon sheath completes a package that we feel is worthy of carry on any front in the world! We know you will agree!

SPECIFICATIONS:

Serialized on a limited basis

Blade: 6.5"x.180" 440A stainless steel

Overall: 12"

Weight: 9 ounces

Rc: 57-58

SOG® Specialty Knives, Inc.

SOG Specialty Knives, Inc. is more than just a knife company. It is a company with a philosophy. One that reflects an uncompromising commitment to excellence in performance and design.

SOG Specialty bladeware is meant to be depended on, regardless of the situation or environment. Each product is thoroughly researched and tested by our staff of cutlery experts prior to production. Our knives are distinguished by the extremely thick stock from which the blades are ground. The handles, utilizing slight finger grooves are ergonomically designed to fit the hand, maintain comfort and provide the strongest grip possible.

SOG's commitment to excellence is exhibited in the use of new technology, allowing us to bring you the finest product at a reasonable price. We use lazer-cutting, elastomer encapsulation, resin impregnation and mechanical innovation, all of which are combined with fine handbuilt workmanship. Our attention to detail is unparalleled. Whether it is our legendary fits between crossguard and blade or the use of aircraft spanner nuts on the pommel assemblies, every piece is hand-matched by the finest craftsman.

Lastly, but certainly no less important, is our belief that practicality can be beautiful. SOG knives exhibit some of the most complicated grind lines, as well as aesthetically pleasing blade shapes in the industry. At SOG Specialty Knives we adhere to the premise that function and form are parallel concepts, attainable through sound design and fabrication. Our bladeware is a handsome combination of tradition, superb craftsmanship and the latest technology. The combination of these three translates as World Class Cutlery, no matter how you cut it!

LIFETIME GUARANTEE

All SOG® products are guaranteed against defects in workmanship and materials. This guarantee is voided by misuse, abuse, improper maintenance, or alterations of the product and does not cover any normal wear that might occur. All guarantee claims should be directed to the factory. U.S. Claims should be sent pre-paid insured. International claims should write or call for information. SOG® Specialty Knives, reserves the right to the repair or replacement of a product at our discretion.

All of SOG Specialty Knives, Inc. products are intended to be used according to local, state and federal laws and ordinances in your area.
